

## **Thanks for your interest in Pearl & Marmalade!**

With fresh & striking designs, top-notch service and highest quality products here at P&M we are fully committed making your paper dreams unfold. Whether you need a simple set of personal stationery or a full wedding invitation suite we will provide you with stationery that's perfect for your needs.

You are able to choose which printing process is right for you, Letterpress or Flat.

**Letterpress Printing** is a timeless, tactile and gorgeous art form that adds inviting texture with ink that is pressed into the paper. This luxurious method is done expertly by hand. Colors are printed one layer at a time, thus adding a second color is an additional cost.

With **Flat Printing** the ink lies smooth on the surface of the paper, and has a flat non-textured feel. This is the best option for those on a tight budget who are unwilling to sacrifice unique quality design. These designs can be printed in up to 2 colors, the second color has no additional cost.

All of our invitations are printed on the finest natural white smooth correspondence stock.

Our current collection can be seen in our on-line Portfolio, on our website's Invitations section. In addition to the Invitation & Reply Card, add-on coordinating pieces can be ordered as well. Some examples are Save the Dates, Reception Cards, Rehearsal Dinner Invites, Info Cards, Favor Tags, Thank You Stationery, Menus, Announcements, Shower Invites and more.

Because every event has it's own personality, each style will be fully customized. Your order can be printed in up to two of your favorite of our Signature Colors and Fonts. During the design process, we work with you every step of the way- giving advice when needed on fonts, colors, wording & design and all your other invitation questions!

**Once you've chosen a suite that is right for you, let us know and we'll get things started.**

**And don't forget pricing info, fonts & color guides are accessible on our website.**
